Introduction

Under the General Data Protection Regulations (GDPR), individuals have a right to be informed about how the school uses any personal data that we hold about them. This report provides information on the kinds of personal data we hold as a school and why and how we might use it.

Schools use a variety of personal data as part of their work and we take great care to ensure that this information is kept safe and secure. Personal data includes things like names, addresses and age, information that we need in order to comply with our statutory role in educating pupils.

Most of this data is essential and does not require your consent to use it. Some personal data is not essential and for that, depending on age, we require the consent of either the pupil or parent. An example of the kind of data that needs consent would be using pupil photographs on the school website.

In this GDPR asset register you will find a complete list of all the systems the school uses which hold personal data. The report also contains additional information such as what personal data items are held, the legal basis for doing this, along with a description of the system and why the school processes the data.

If you have any queries about this document or any other issue relating to personal data, please contact the school Data Protection Officer, whose name is on the front of the pack.

Classroom Secrets	Classroom Secrets was founded by Claire and Ed Riley in 2013 after Claire took a supply role in a primary school. Being a trained secondary school teacher of performing arts, Claire was used to differentiating by outcome rather than by activity. When planning for her Year 4 class, she came across a problem – the activities and resources available did not allow all children in the same class to access them. Claire was used to providing the same activity for all children, with a choice of levels that would suit each child. And with that, the idea for Classroom Secrets was born... Based in Claire and Ed's hometown of Halifax, we have seen rapid growth since the spring of 2018. We now have over 50 employees working hard on a daily basis to bring you resources that help children learn and teachers reduce their workloads.

School Cloud	SchoolCloud started in a computing classroom — except, we weren't the teachers. Our company founders were aged 15 and challenged by their IT teacher to solve a school-wide issue of room double bookings. They spent a rainy, Scottish summer developing our very first product, Room Booking System. Not only did their school find it a winning solution, but they even gave them the grand sum of £100 for it! Equipped with our first income and some valuable guidance from entrepreneurial parents, we launched our business from the playground in 2006. And we've not looked back since. Today, by understanding our customers to ensure our technology is tailored to their needs, our software has come far beyond version one. We've organically grown our team to develop and launch multiple award-winning technology solutions that are used across the world to	

	enhance school operations.	
School Gateway	School Gateway is your school's app available on Android, iOS and the web. It'll work on phones tablets, laptops and even smart watches. System used: Classroom Secrets	
Description	Classroom Secrets was founded by Claire and Ed Riley in 2013 after Claire took a supply role in a primary school. Being a trained secondary school teacher of performing arts, Claire was used to differentiating by outcome rather than by activity. When planning for her Year 4 class, she came across a problem – the activities and resources available did not allow all children in the same class to access them. Claire was used to providing the same activity for all children, with a choice of levels that would suit each child. And with that, the idea for Classroom Secrets was born... Based in Claire and Ed's hometown of Halifax, we have seen rapid growth since the spring of 2018. We now have over 50 employees working hard on a daily basis to bring you resources that help children learn and teachers reduce their workloads.

System used: CPOMS

Description

CPOMS - Safeguarding and Child Protection Software for Schools Secure online monitoring of child protection, safeguarding and wider student pastoral welfare for schools. CPOMS is software application for monitoring child protection, safeguarding and a whole range of pastoral and welfare issues. Working alongside a school's existing safeguarding processes, CPOMS is an intuitive system to help with the management and recording of child protection, behavioural issues, bullying, special educational needs, domestic issues and much much more. Using CPOMS, schools can ensure that students are safe and fully supported, whilst school staff can focus on teaching and providing support, instead of administration.

System used: Place Leisure- School Swimming Management System

Description	The SSMS is a digital assessment tool, assessing pupils using Swim England School Swimming and Water Safety Charter. It is matched against the National Curriculum programmes of study and provides schools with termly reports. Reports evidence statistics to unlock Sports Premium funding for further swimming lessons. The product gives Places Leisure an important opportunity to gather national data to report on school swimming and influence national networks. Data gathered will strengthen potential to 'close the gap' for the 30% not yet meeting the standard. The system requires a school pupil data upload containing basic details for pupils swimming each term. Data is automatically uploaded to the Places Leisure School Swim App where school swim instructors assess pupils against Swim England's School Swimming Awards. Schools receive a termly update on pupil attainment for all pupils we have the data for.

System used: School Cloud	
Description	SchoolCloud started in a computing classroom — except, we weren't the teachers. Our company founders were aged 15 and challenged by their IT teacher to solve a school-wide issue of room double bookings. They spent a rainy, Scottish summer developing our very first product, Room Booking System. Not only did their school find it a winning solution, but they even gave them the grand sum of £100 for it! Equipped with our first income and some valuable guidance from entrepreneurial parents, we launched our business from the playground in 2006. And we've not looked back since. Today, by understanding our customers to ensure our technology is tailored to their needs, our software has come far beyond version one. We've organically grown our team to develop and launch multiple award-winning technology solutions that are used across the world to enhance school operations.
