GDPR Asset Register

Date: 19/11/2026

Data Protection Officer: Vicki Evans

Introduction

Under the General Data Protection Regulations (GDPR), individuals have a right to be informed about how the school uses any personal data that we hold about them. This report provides information on the kinds of personal data we hold as a school and why and how we might use it.

Schools use a variety of personal data as part of their work and we take great care to ensure that this information is kept safe and secure. Personal data includes things like names, addresses and age, information that we need in order to comply with our statutory role in educating pupils.

Most of this data is essential and does not require your consent to use it. Some personal data is not essential and for that, depending on age, we require the consent of either the pupil or parent. An example of the kind of data that needs consent would be using pupil photographs on the school website.

In this GDPR asset register you will find a complete list of all the systems the school uses which hold personal data. The report also contains additional information such as what personal data items are held, the legal basis for doing this, along with a description of the system and why the school processes the data.

If you have any queries about this document or any other issue relating to personal data, please contact the school Data Protection Officer, whose name is on the front of the pack.

We will only transfer your data outside the European Economic Area (EEA) if it is necessary for us to do so (for example because there are no reasonable alternative support companies based in the EEA). If we have to transfer your personal information out of the EEA, we will ensure protection is afforded to it by ensuring that at least one of the following safeguards is implemented: ? We will only transfer your personal information to support companies in countries that have been deemed to provide an adequate level of protection by the European Commission. ? Where we use certain support companies, we may use specific contracts approved by the European Commission which give personal information the same protection it has in Europe. ? Where we use support companies based in the US, we may transfer personal information to them where

	they have implemented standard contractual clauses, which requires them to provide similar protection to personal information shared between Europe and the US. ? In the case of all support companies used by HegartyMaths, we undertake detailed due diligence to ensure that each support company has good privacy safeguards and security features in place to prevent unauthorised access to or use of personal information we send it.
