GDPR Privacy Notice Summary Report

Date: 16/11/2026

Data Protection Officer: Wallis Bath

01670 735177

Introduction

Under the General Data Protection Regulations (GDPR), individuals have a right to be informed about how the school uses any personal data that we hold about them. This report provides information on the kinds of personal data we hold as a school and why and how we might use it.

Schools use a variety of personal data as part of their work and we take great care to ensure that this information is kept safe and secure. Personal data includes things like names, addresses and age, information that we need in order to comply with our statutory role in educating pupils.

Most of this data is essential and does not require your consent to use it. Some personal data is not essential and for that, depending on age, we require the consent of either the pupil or parent. An example of the kind of data that needs consent would be using pupil photographs on the school website.

In this GDPR Privacy Notice summary report, you will find a complete list of all the systems the school uses which hold personal data. The report also contains additional information such as what personal data items are held, the legal basis for doing this, along with a description of the system, why the school processes the data and who it is shared with.

If you have any queries about this document or any other issue relating to personal data, please contact the school Data Protection Officer, whose name is on the front of the pack.

	except, we weren’t the teachers. Our company founders were aged 15 and challenged by their IT teacher to solve a school-wide issue of room double bookings. They spent a rainy, Scottish summer developing our very first product, Room Booking System. Not only did their school find it a winning solution, but they even gave them the grand sum of £100 for it! Equipped with our first income and some valuable guidance from entrepreneurial parents, we launched our business from the playground in 2006. And we’ve not looked back since. Today, by understanding our customers to ensure our technology is tailored to their needs, our software has come far beyond version one. We’ve organically grown our team to develop and launch multiple award-winning technology solutions that are used across the world to enhance school operations.

System used: Moki	
Owner	Cramlington Village Primary School
Description	Deliver Easy To Manage Educational Resources As students become more engaged with modern technology, so should outdated school systems. Moki enables universities and schools to deploy solutions that keep students on task, save money on textbooks, aid in the education process, and provide study room management. Universities and schools around the globe are deploying single-use or single-purpose digital kiosk devices across their universities and schools for devices used to purchase snacks from school cafes and lunch rooms, devices used to purchase items from bookstores, devices used to fill out and sign forms and more. Digital kiosks are cutting costs as well as creating enhanced experiences for students. Moki gives educational institutions the tools needed to lock down their single-use or single-purpose devices to an app or website, to remotely update content and device settings in seconds, and to receive alerts if issues arise.

System used: School Cloud	
Owner	Cramlington Village Primary School
Description	SchoolCloud started in a computing classroom — except, we weren't the teachers. Our company founders were aged 15 and challenged by their IT teacher to solve a school-wide issue of room double bookings. They spent a rainy, Scottish summer developing our very first product, Room Booking System. Not only did their school find it a winning solution, but they even gave them the grand sum of £100 for it! Equipped with our first income and some valuable guidance from entrepreneurial parents, we launched our business from the playground in 2006. And we've not looked back since. Today, by understanding our customers to ensure our technology is tailored to their needs, our software has come far beyond version one. We've organically grown our team to develop and launch multiple award-winning technology solutions that are used across the world to enhance school operations.
