## Introduction

Under the General Data Protection Regulations (GDPR), individuals have a right to be informed about how the school uses any personal data that we hold about them. This report provides information on the kinds of personal data we hold as a school and why and how we might use it.

Schools use a variety of personal data as part of their work and we take great care to ensure that this information is kept safe and secure. Personal data includes things like names, addresses and age, information that we need in order to comply with our statutory role in educating pupils.

Most of this data is essential and does not require your consent to use it. Some personal data is not essential and for that, depending on age, we require the consent of either the pupil or parent. An example of the kind of data that needs consent would be using pupil photographs on the school website.

In this GDPR Privacy Notice summary report, you will find a complete list of all the systems the school uses which hold personal data. The report also contains additional information such as what personal data items are held, the legal basis for doing this, along with a description of the system, why the school processes the data and who it is shared with.

If you have any queries about this document or any other issue relating to personal data, please contact the school Data Protection Officer, whose name is on the front of the pack.

School Cloud	SchoolCloud started in a computing classroom — except, we weren't the teachers. Our company founders were aged 15 and challenged by their IT teacher to solve a school-wide issue of room double bookings. They spent a rainy, Scottish summer developing our very first product, Room Booking System. Not only did their school find it a winning solution, but they even gave them the grand sum of £100 for it! Equipped with our first income and some valuable guidance from entrepreneurial parents, we launched our business from the playground in 2006. And we've not looked back since. Today, by understanding our customers to ensure our technology is tailored to their needs, our software has come far beyond version one. We've organically grown our

System used: Debbie Judd HR	
<b>Owner</b>	Bedlington West End Primary School
<b>Description</b>	<p>Our aim is to provide outstanding HR advice and support to schools and academies, which will enable schools and academies to focus on providing high standards of education to their pupils and students. We are based in the North East of England and we offer HR advice and support to education establishments local to us and remotely to those further afield. Whatever the size of your organisation, we can offer flexible HR advice and support through our different packages. We are well aware of budget restraints across the education and other sectors and will always endeavour to keep our costs low and ensure that we provide value for money, supporting clients to manage their budgets efficiently. In our experience, we have found that the vast majority of HR issues can be resolved informally when dealt with appropriately at the earliest opportunity and strive to work with our clients on this basis. Our aim is to support you through initial concerns, providing professional, appropriate, proactive support in order to avoid a lengthy, costly HR process. We pride ourselves on our caring, knowledgeable and professional approach and will deliver legislative and practical HR support, at the highest standard, whilst adopting a common sense approach.</p>

<b>System used: Place Leisure- School Swimming Management System</b>	
<b>Owner</b>	Bedlington West End Primary School
<b>Description</b>	The SSMS is a digital assessment tool, assessing pupils using Swim England School Swimming and Water Safety Charter. It is matched against the National Curriculum programmes of study and provides schools with termly reports. Reports evidence statistics to unlock Sports Premium funding for further swimming lessons. The product gives Places Leisure an important opportunity to gather national data to report on school swimming and influence national networks. Data gathered will strengthen potential to 'close the gap' for the 30% not yet meeting the standard. The system requires a school pupil data upload containing basic details for pupils swimming each term. Data is automatically uploaded to the Places Leisure School Swim App where school swim instructors assess pupils against Swim England's School Swimming Awards. Schools receive a termly update on pupil attainment for all pupils we have the data for.

System used: School Cloud

<b>Owner</b>	Bedlington West End Primary School
<b>Description</b>	<p>SchoolCloud started in a computing classroom — except, we weren't the teachers. Our company founders were aged 15 and challenged by their IT teacher to solve a school-wide issue of room double bookings. They spent a rainy, Scottish summer developing our very first product, Room Booking System. Not only did their school find it a winning solution, but they even gave them the grand sum of £100 for it! Equipped with our first income and some valuable guidance from entrepreneurial parents, we launched our business from the playground in 2006. And we've not looked back since. Today, by understanding our customers to ensure our technology is tailored to their needs, our software has come far beyond version one. We've organically grown our team to develop and launch multiple award-winning technology solutions that are used across the world to enhance school operations.</p>

<b>Owner</b>	Bedlington West End Primary School
<b>Description</b>	Here at The Headteacher's Report, our entire existence revolves around creating the most dynamic, professional and easy to understand reports for our Heads, CEOs and their Governors and trustees alike. We understand how many leadership hours it typically takes to produce a Headteacher's Report from scratch. With this in mind, we set ourselves the challenge of making this process quicker, simpler and smarter, whilst producing beautifully presented reports. We live and breathe education, no problem is too big to solve and we chuck in a big slice of our family orientated small-business passion into every single report. We help make reporting to Governors and trustees that little bit easier so that you don't have to burn the midnight oil trying to finish your report.
