Bellingham Primary School

GDPR Privacy Notice Summary Report

Date: 02/07/2025

Data Protection Officer: Margaret Arksey

01434220230

Introduction

Under the General Data Protection Regulations (GDPR), individuals have a right to be informed about how the school uses any personal data that we hold about them. This report provides information on the kinds of personal data we hold as a school and why and how we might use it.

Schools use a variety of personal data as part of their work and we take great care to ensure that this information is kept safe and secure. Personal data includes things like names, addresses and age, information that we need in order to comply with our statutory role in educating pupils.

Most of this data is essential and does not require your consent to use it. Some personal data is not essential and for that, depending on age, we require the consent of either the pupil or parent. An example of the kind of data that needs consent would be using pupil photographs on the school website.

In this GDPR Privacy Notice summary report, you will find a complete list of all the systems the school uses which hold personal data. The report also contains additional information such as what personal data items are held, the legal basis for doing this, along with a description of the system, why the school processes the data and who it is shared with.

If you have any queries about this document or any other issue relating to personal data, please contact the school Data Protection Officer, whose name is on the front of the pack.

Systems included in this report

System Name	Description	Special Category
2Build a profile	EYFS email communication & observation system	yes
Accelerated Reader	Accelerated Reader gives teachers the information they need to monitor students' reading practice and make informed decisions to guide their future learning.	
Accident book	Log of accidents / minor injuries in school

Smartlog Software	Health and safety records software	yes
Social media sites e.g. Twitter, Facebook	Social Media tool used to inform parents about events in school and celebrate children's achievement.	
Spelling Frame	Spellingframe includes all the words - both statutory and the example words - from the National Curriculum for Spelling for Year 1 to Year 6. Choose a spelling rule and each word is read aloud and provided within a sentence for context. Students can choose to practise a set of words, take a test, or play a game with those words (games are available to registered users only). If they choose to practise they will see and hear the word broken down into syllables (phonemes for the Y1 words) and will then be given a series of activities to help them to memorise the spelling. The activities develop increasing independence. If a student then spells the word correctly they move on to the next word. If they make a mistake they repeat the process	

	to help them to learn the word. If a student chooses to be tested they receive instant feedback. If they make a mistake they are shown the correct spelling and given a series of activities to help them to remember. Spellingframe should work on all devices. If you have any difficulties accessing the activities please get in touch via the contact page. With a school account every student is provided with their own unique login. Teachers can then schedule custom word lists and monitor the test scores of their students. Teachers can schedule words for their whole class or they can set different sets of words for specified groups of students or individual students. There is a guide to setting up a school account here. An individual account will allow one student to log in, play all the games, and will record their scores each time they take a test. It will soon be possible to set students activities with their own personalised list of 'tricky' words - those that they have spelled incorrectly in previous tests. We are still working on creating lots of new games and adding hundreds of new words and features.	
Spelling Shed	The Spelling Shed - proudly powered by EdShed - is a spelling platform designed by a team of teachers. It is built with students, teachers and parents in mind and aims to make spelling fun for students as well as simple for adults to manage.	
STEM	Developing teachers and leaders Explore programmes and resources that support professional development and drive the impact of teaching across schools and colleges. o support parents and carers, our subject experts have put together a selection of activities and materials, which are free for everyone to access.

Why is it being processed?	Unnamed photos of pupils and their work are used on the site
Who is data shared with?	Information shared with parents

System used: Spelling Frame	
Owner	Bellingham Primary School
Description	Spellingframe includes all the words - both statutory and the example words - from the National Curriculum for Spelling for Year 1 to Year 6. Choose a spelling rule and each word is read aloud and provided within a sentence for context. Students can choose to practise a set of words, take a test, or play a game with those words (games are available to registered users only). If they choose to practise they will see and hear the word broken down into syllables (phonemes for the Y1 words) and will then be given a series of activities to help them to memorise the spelling. The activities develop increasing independence. If a student then spells the word correctly they move on to the next word. If they make a mistake they repeat the process to help them to learn the word. If a student chooses to be tested they receive instant feedback. If they make a mistake they are shown the correct spelling and given a series of activities to help them to remember. Spellingframe should work on all devices. If you have any difficulties accessing the activities please get in touch via the contact page. With a school account every student is provided with their own unique login. Teachers can then schedule custom word lists and monitor the test scores of their students. Teachers can schedule words for their whole class or they can set different sets of words for specified groups of students or individual students. There is a guide to setting up a school account here. An individual account will allow one student to log in, play all the games, and will record their scores each time they take a test. It will soon be possible to set students activities with their own personalised list of 'tricky' words - those that they have spelled incorrectly in previous tests. We are still working on creating lots of new games and adding hundreds of new words and features.
